Grand Traverse County Health Department reports public exposure site

The Grand Traverse County Health Department would like to inform the public that a place of potential public exposure was discovered while conducting COVID-19 case investigations. See location below. **Exposure sites not open to the public are contacted directly.**

Great Wolf Lodge:

Trick or Treat Trail
Wednesday, October 21 from 5 - 7:00 p.m.

If you were present at the above location during the listed time periods, you should self-monitor for COVID-19 symptoms for 14 days since the possible exposure, **particularly if you were not wearing a mask or maintaining 6 foot distance from others.**

Symptoms include: fever, cough, shortness of breath, vomiting, diarrhea, muscle aches, repeated shaking with chills, headache, sore throat and new loss of taste or smell.

Anyone that is self-monitoring as a result should have a heightened sense of awareness that you could become infectious at any point during the 14-day self-monitoring period. Please keep this in mind when interacting with family, friends and the public.
